Joint Standing Committee on Appropriations and Financial Affairs

2. It amends Part D to reduce bond funds allocated to the Efficiency Maine Trust's Municipal Energy Efficiency and Renewable Energy Program from \$15,000,000 to \$10,000,000 and allocates \$5,000,000 to the trust's Heating Fuels Efficiency and Weatherization Fund to recapitalize that fund. It also changes the language regarding disbursement of bond proceeds to provide that payment from bond proceeds for acquisitions to community conservation projects may be made directly to cooperating entities and removes the requirement that the Land for Maine's Future Board give preference to acquisitions that achieve benefits for multiple towns and address regional conservation needs. It also includes community conservation projects in the expenditures for which bond funds must be matched with at least \$30,000,000 in public and private contributions.

3. It amends Part E to allow Maine Efficiency Trust to award grant funding under the Municipal Energy Efficiency and Renewable Energy Program for a solar array that is not directly owned by a municipality or school administrative unit if, pursuant to an agreement between the owner of the solar array and a municipality or school administrative unit, the sole user of the energy produced by the solar array is the municipality or school administrative unit that entered into the agreement.

4. It adds Part F, which requires the ConnectME Authority to establish a process to ensure state funds made available pursuant to the bond issue under Part B are used to build broadband Internet service in areas of the State that do not meet the goals for broadband service described under the Maine Revised Statutes, Title 35-A, section 9202-A.

5. It adds Part G, which allows proceeds of the Land for Maine's Future Fund to be spent on property that is determined by the Land for Maine's Future Board to be for a community conservation project, defines "community conservation project," includes Maine Indian tribes under the definition of "cooperative entities" and sets helping the State's natural ecosystems, wildlife and natural resource-based economies adapt to a changing climate as a priority of the board in making land acquisitions.

Committee Amendment "B" (S-355)

This amendment, which is the minority report of the committee, strikes out Parts B to E.
