LD 1849 An Act To Clarify Inspection Requirements for Hospitals and Certain Nursing Facilities

ENACTED LAW SUMMARY

Public Law 2021, chapter 541 makes changes to the inspection requirements for hospitals and nursing facilities.

1. It removes the requirement for nursing facilities providing both nursing home and assisted living services to receive a single coordinated licensing and fire code inspection. Nursing home services inspections occur at varied intervals between nine and 15 months apart based on a facility's performance with the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services' conditions of participation, while assisted living services inspections occur on a 2-year cycle.
2. It provides that a hospital is exempt from inspection by the Maine Department of Health and Human Services if it submits to the department a copy of its accreditation survey results completed by a health care facility accrediting organization, including a statement of any deficiencies and corresponding plan of correction. The survey findings submitted to the department are confidential.
