**LEGISLATIVE DIGEST OF BILLS AND
SUMMARIES OF ENACTED LAWS**

This *Legislative Digest of Bills and Summaries of Enacted Laws* provides the disposition of all LDs and summaries of all laws enacted or finally passed during the First Regular and First Special Sessions of the 131st Maine Legislature. Please note that all LDs and proposed amendments may be found through the Legislature’s webpage, and each includes a summary of what the bill or amendment proposed.

The *Legislative Digest of Bills and Summaries of Enacted Laws* is arranged alphabetically by committee. Within each committee section is a subject index of all LDs considered by that committee as well as a digest of the LDs, arranged by LD number. Also included are enacted law summaries of the LDs enacted or finally passed. Brief analyst notes on certain LDs are also included: a committee digest will indicate if additional notes are provided for an LD. These notes add information staff found useful and may provide useful information to users of this *Digest*; please note that most LDs do not have a note and lack of a note should not be interpreted as having any significance. A separate section of the *Digest* provides a digest of the relatively few LDs that were not referred to a committee or reported from a committee as a committee bill; enacted law summaries of the LDs enacted or finally passed are provided. Finally, an appendix provides a summary of relevant session statistics.

JOINT STANDING COMMITTEE ON INLAND FISHERIES AND WILDLIFE

LD 131 An Act to Clarify and Correct Inland Fisheries and Wildlife Laws

ENACTED LAW SUMMARY

Public Law 2023, chapter 228 makes the following changes to sections of Title 12.

1. It eliminates provisions relating to the annual reports to the joint standing committee of the Legislature having jurisdiction over inland fisheries and wildlife matters on deer and moose management.
2. It renames the Species Management Education Fund the Fish and Wildlife Management Education Fund and allows funding to be used for education on the management of fish and wildlife and to communicate with the public about department programs. It also removes the requirement in current law that education provided under the fund must include information about how hunting and fishing help to manage specific species.
3. It renames the Black Bear Research Fund the Black Bear Research and Management Fund and modifies its purpose to allow the fund to be used for both research and management activities.
4. It removes the requirement that a person involved in a hunting incident or a watercraft, snowmobile or all-terrain vehicle crash submit to a mandatory chemical test and removes references to that requirement.
5. It provides clarity on how a super pack licensee applies for an antlerless deer permit.
6. It exempts members of certain federally recognized Indian nations, bands or tribes from the requirement to complete a bear trapping education course.
7. It resolves a conflict in Title 12 regarding the cost of combination licenses.
8. It removes references to specific types of personal flotation devices.
