LEGISLATIVE DIGEST OF BILLS AND SUMMARIES OF ENACTED LAWS

This Legislative Digest of Bills and Summaries of Enacted Laws provides the disposition of all LDs and summaries of all laws enacted or finally passed during the First Regular and First Special Sessions of the 131st Maine Legislature. Please note that all LDs and proposed amendments may be found through the Legislature's webpage, and each includes a summary of what the bill or amendment proposed.

The Legislative Digest of Bills and Summaries of Enacted Laws is arranged alphabetically by committee. Within each committee section is a subject index of all LDs considered by that committee as well as a digest of the LDs, arranged by LD number. Also included are enacted law summaries of the LDs enacted or finally passed. Brief analyst notes on certain LDs are also included: a committee digest will indicate if additional notes are provided for an LD. These notes add information staff found useful and may provide useful information to users of this Digest; please note that most LDs do not have a note and lack of a note should not be interpreted as having any significance. A separate section of the Digest provides a digest of the relatively few LDs that were not referred to a committee or reported from a committee as a committee bill; enacted law summaries of the LDs enacted or finally passed are provided. Finally, an appendix provides a summary of relevant session statistics.

The final disposition of each LD is noted in the relevant summary digest and index. The following describes the various final actions.

LD 354 An Act to Amend the Laws Regarding the Use of Licensed Professional Engineers on Certain Public Works Projects

ENACTED LAW SUMMARY

Public Law 2023, chapter 174 repeals and replaces the Maine Revised Statutes, Title 32, section 1254. It exempts certain public works construction projects that otherwise require the services of a licensed professional engineer from the need for a professional engineer if: an authorized representative of a department of this State or any of this State's political subdivisions or any county, city, town, township or plantation engaged in the construction of the public works project issues a written determination that the life, health and property of the public will be adequately protected without the services of a licensed professional engineer; and the contemplated expenditure for the completed project does not exceed \$250,000. For purposes of issuing the written determination, the Director of the Bureau of General Services within the Department of Administrative and Financial Services is the authorized representative of a department of this State engaged in public works that constitute public improvements under Title 5, chapter 153. The law also clarifies that a department of this State or any of this State's political subdivisions or any county, city, town, township or plantation may still require the services of a licensed professional engineer for any public works project that meets both conditions.
