FIRST REGULAR AND FIRST SPECIAL SESSIONS

**LEGISLATIVE DIGEST OF BILLS AND  
SUMMARIES OF ENACTED LAWS**

This *Legislative Digest of Bills and Summaries of Enacted Laws* provides the disposition of all LDs and summaries of all laws enacted or finally passed during the First Regular and First Special Sessions of the 131st Maine Legislature. Please note that all LDs and proposed amendments may be found through the Legislature’s webpage, and each includes a summary of what the bill or amendment proposed.

The *Legislative Digest of Bills and Summaries of Enacted Laws* is arranged alphabetically by committee. Within each committee section is a subject index of all LDs considered by that committee as well as a digest of the LDs, arranged by LD number. Also included are enacted law summaries of the LDs enacted or finally passed. Brief analyst notes on certain LDs are also included: a committee digest will indicate if additional notes are provided for an LD. These notes add information staff found useful and may provide useful information to users of this *Digest*; please note that most LDs do not have a note and lack of a note should not be interpreted as having any significance. A separate section of the *Digest* provides a digest of the relatively few LDs that were not referred to a committee or reported from a committee as a committee bill; enacted law summaries of the LDs enacted or finally passed are provided. Finally, an appendix provides a summary of relevant session statistics.

The final disposition of each LD is noted in the relevant summary digest and index. The following describes the various final actions.

**LD 925 An Act to Allow the Baileyville Utilities District to Disconnect Water Service for a Customer's Failure to Pay for Sewer Service Provided by the Town of Baileyville**

**ENACTED LAW SUMMARY**

Private and Special Law 2023, chapter 6 amends the charter for the Baileyville Utilities District to allow the district to disconnect water service for a customer if that same customer fails to pay for sewer service that is provided by the Town of Baileyville if the disconnection is in accordance with procedures established by applicable laws or rules and terms and conditions approved by the Public Utilities Commission. The disconnection is allowed only if the customer whose water service is subject to a disconnection is the same customer who has not paid for sewer service and the water and sewer services are provided to the same location.

**LD 952 Resolve, to Create a 21st-Century Electric Grid**

**ENACTED LAW SUMMARY**

Resolve 2023, chapter 67 directs the Governor's Energy Office to issue a request for proposals to hire a third-party consultant to conduct a two-part study for the design of a distribution system operator in the State. The distribution system operator must be designed to oversee integrated system planning for all electric grids in the State, including coordinating energy planning efforts across state agencies; operate all electric grids in the State to ensure optimum operations, efficiency, equity, reliability and customer service; administer an open and transparent market for distributed energy resources; and facilitate the achievement of the State's greenhouse gas reduction obligations and climate policies. In the consultant's initial study, the consultant must evaluate whether a distribution system operator could be designed to achieve a demonstrable reduction in electricity costs for customers, improved electric system reliability and performance in the State, accelerated achievement of the State's climate goals and growth of distributed energy resources. If the consultant's initial study finds that a distribution system operator could be designed to achieve the required objectives and the office agrees with the consultant's conclusion, the office must authorize the consultant to conduct the second part of the study to create a design proposal.

If the office does not authorize the consultant to conduct the second part of the study, the office must present the initial study to the joint standing committee of the Legislature having jurisdiction over energy matters within 60 days of the completion of the consultant's initial study.

If the office authorizes the second part of the study to create a design proposal, upon its completion, the office is required to prepare an analysis based on the consultant's design proposal and provide it to the joint standing committee of the Legislature having jurisdiction over energy matters by January 1, 2025.
