# STATE OF MAINE

131<sup>ST</sup> LEGISLATURE  
SECOND REGULAR SESSION

## LEGISLATIVE DIGEST OF BILLS AND SUMMARIES OF ENACTED LAWS

This *Legislative Digest of Bills and Summaries of Enacted Laws* provides the disposition of all LDs and summaries of all laws enacted or finally passed during the Second Regular Session of the 131st Maine Legislature. Please note that all LDs and proposed amendments may be found through the Legislature's webpage, and each includes a summary of what the bill or amendment proposed.

The *Legislative Digest of Bills and Summaries of Enacted Laws* is arranged alphabetically by committee. Within each committee section is a subject index of all LDs considered by that committee as well as a digest of the LDs, arranged by LD number. Also included are enacted law summaries of the LDs enacted or finally passed. Brief analyst notes on certain LDs are also included: a committee digest will indicate if additional notes are provided for an LD. These notes add information staff found useful and may provide useful information to users of this *Digest*; please note that most LDs do not have a note and lack of a note should not be interpreted as having any significance. A separate section of the *Digest* provides a digest of the relatively few LDs that were not referred to a committee or reported from a committee as a committee bill; enacted law summaries of the LDs enacted or finally passed are provided. Finally, an appendix provides a summary of relevant session statistics.

The final disposition of each LD is noted in the relevant summary digest and index. The following describes the various final actions.

### **LD 1660 An Act to Ensure Proper Regulation of Chemical Plastic Processing**

#### **ENACTED LAW SUMMARY**

Public Law 2023, chapter 517 amends the solid waste laws to define “chemical plastic processing,” “plastic” and “plastic-to-plastic recycling” and clarifies that a facility that processes plastic waste through chemical plastic processing is a solid waste processing facility. “Chemical plastic processing” is defined as the processing of plastic waste using chemical or molecular methods into basic raw materials, feedstock chemicals, fuel for combustion, waxes or lubricants and does not include plastic-to-plastic recycling. The law also provides that, for the purposes of the recycling and source reduction determination requirement generally applicable to solid waste processing facilities, a solid waste processing facility may not count as recycled any plastic waste processed through chemical plastic processing. Finally, the law requires a solid waste processing facility that processes plastic waste through chemical plastic processing to satisfy financial assurance requirements currently applicable to solid waste disposal facilities.
