131<sup>ST</sup> LEGISLATURE  
SECOND REGULAR SESSION

## LEGISLATIVE DIGEST OF BILLS AND SUMMARIES OF ENACTED LAWS

This *Legislative Digest of Bills and Summaries of Enacted Laws* provides the disposition of all LDs and summaries of all laws enacted or finally passed during the Second Regular Session of the 131st Maine Legislature. Please note that all LDs and proposed amendments may be found through the Legislature's webpage, and each includes a summary of what the bill or amendment proposed.

The *Legislative Digest of Bills and Summaries of Enacted Laws* is arranged alphabetically by committee. Within each committee section is a subject index of all LDs considered by that committee as well as a digest of the LDs, arranged by LD number. Also included are enacted law summaries of the LDs enacted or finally passed. Brief analyst notes on certain LDs are also included: a committee digest will indicate if additional notes are provided for an LD. These notes add information staff found useful and may provide useful information to users of this *Digest*; please note that most LDs do not have a note and lack of a note should not be interpreted as having any significance. A separate section of the *Digest* provides a digest of the relatively few LDs that were not referred to a committee or reported from a committee as a committee bill; enacted law summaries of the LDs enacted or finally passed are provided. Finally, an appendix provides a summary of relevant session statistics.

The final disposition of each LD is noted in the relevant summary digest and index. The following describes the various final actions.

## LD 2261 An Act Regarding New Motor Vehicle Emissions Rules

### ENACTED LAW SUMMARY

Public Law 2023, chapter 624 amends the law governing new motor vehicle emission standards to provide that rules adopted or amended by the Board of Environmental Protection on or after August 1, 2024 pursuant to that law, including, but not limited to, rules to establish zero-emission requirements, are major substantive rules as defined in the Maine Revised Statutes, Title 5, chapter 375, subchapter 2-A.

Public Law 2023, chapter 624 also requires that, beginning January 1, 2025, and annually thereafter, the Department of Environmental Protection submit a report to the joint standing committee of the Legislature having jurisdiction over environment and natural resources matters regarding the status of the regulatory program adopted by the California Air Resources Board for new motor vehicle emissions, known as the Advanced Clean Cars II program, and the adoption of that program by other states, as well as any updates regarding federal motor vehicle emissions control requirements. After reviewing the report, the committee may report out legislation relating to the report. For the first such report due January 1, 2025, the law requires the Department of Environmental Protection to collaborate with the Department of Transportation, the Governor's Energy Office, the Office of Policy Innovation and the Future and the Efficiency Maine Trust in evaluating relevant barriers to the adoption of zero-emission vehicle standards or requirements in the State. In addition to the statutory requirements for that report, the report due January 1, 2025 must include an analysis of zero-emission vehicle adoption rates in the State relative to national trends and identification of barriers to achieving higher adoption rates, identification of strategies to reduce those barriers with particular consideration given to barriers present in rural communities and an evaluation of policies or market trends for overcoming those barriers. The Department of Environmental Protection is required to submit this report by January 1, 2025 to the joint standing committees of the Legislature having jurisdiction over environment and natural resources matters, energy and utilities matters and transportation matters. After reviewing the report, each of the joint standing committees may report out legislation relating to the report to the 132nd Legislature in 2025.
